Grading and assignment reference

Component	Course weight
Pre-class blogs	10%
Simulation reflections	40%
Participation	10%
Midterm report and video	20%
Final report and video	20%

Blogs 10%; simulation reflections 40%; participation 10%; midterm report and video together 20%; final report and video together 20%. Team registration is required setup with no separate course weight. Preserve the existing Blackboard allocation between each report and video; use the video scoring criteria already posted there. Report rubric points (midterm 60 plus up to 4 bonus; final 50) are not course percentages. All existing Blackboard deadlines and cutoff times remain unchanged.

Students work in five-person teams to analyze one selected company across the midterm and final. Weekly simulations use four functional leads (Financial, Marketing, Operation, and Tech) plus an Account Manager. The introductory exercise uses a smaller role set.

Use the midterm guide, final guide, and report rubric overview for project requirements. The existing weekly reflection length (1,000–1,500 words) and blog length (50–100 words) remain in effect.

Office hour

MENT/BADM 2234 Office Hour

This is an office hour for helping answering questions regarding class contents, projects, etc.

Commenting

Read the above AI-generated blog and write the comments Comments should: - Be 50-100 words - Identify one clear point of agreement or disagreement - Add evidence, an example, or a follow-up question - Connect the post to the weekly topic or simulation case

Simulation Reflection

Requirements

Participate in the assigned in-class simulation and write a reflection of 1000-1500 words

1. Describe what you did in the simulation.
2. Explain what you learned from the simulation.
3. Explain what you would improve next time.
4. Connect your reflection to the week's topic and case.
