MENT 2234: Midterm Schedule and Instructions

Please use the midterm work period to collaborate with your team and prepare your report and pitch video. The steps below will help you get started.

Class schedule: October 6–15

- **October 6, 8, and 13:** We will not meet for class. Please dedicate this time to your team's midterm report and pitch video.
- **October 15:** We will meet remotely. I will review your midterm survey feedback and discuss adjustments for the rest of the course. We will also review key takeaways from the submitted reports and pitch videos, with a focus on ways to strengthen your work.

1. Review the assignment requirements

Read the Midterm Project Instructions for the report rubric, 15-minute pitch video requirements, team responsibilities, and submission process. The Final Project Instructions explain how you will build on this work later in the semester.

2. Join your team workspace

Please join the group workspace in SkillSimm before accessing the Blackboard assignments.

- **Join link:** https://app.skillsimm.com/join/FSLPJ8M4
- **Joining code:** `FSLPJ8M4`

3. Get support as you work

You are welcome to book office hours with your team for mentoring, feedback, or help with questions that arise during the project.

Office-hours booking link: Book MENT 2234 office hours

4. Share general questions

If you have a question that may help other teams, please post it in the course discussion space. I will respond there so everyone can benefit from the answer.

I look forward to seeing how your team applies what we have learned to your chosen company!

Peer Evaluation

If a team member is not actively participating in the group project, the team leader may take over their tasks in SkillSimm. When submitting the report, team leaders may attach a peer evaluation request (Part 1) at the end of the report. After receiving the request, I will initiate a peer evaluation and ask each team member to complete Part 2. Individual grades will then be assigned based on each member's contributions.

If a team leader is not actively engaged, team members can reflect to me and I will switch the leader.
